

GREEN CAMPUS REPORT

R. S. Gunjal College of B.Sc. Nursing

Academic Year: 2025–2026

1. Introduction

A green campus is an eco-friendly campus that follows practices to protect and conserve the environment. R. S. Gunjal College of B.Sc. Nursing believes that environmental health is closely related to human health. As a nursing institution, the college encourages sustainable practices to maintain a clean, healthy, and green campus for students and staff.

2. Objectives:-

To create awareness about environmental protection

To conserve water and electricity

To reduce pollution and waste

To promote eco-friendly practices

To maintain a clean and healthy campus

3. Green Campus Policies

R. S. Gunjal College of B.Sc. Nursing follows various green campus policies such as:

Plastic-free campus

Energy conservation

Water conservation

Proper waste management

Tree plantation and greenery promotion

These policies are communicated to students and staff regularly.

4. Eco-Friendly Infrastructure

The college campus is surrounded by trees and plants which provide a healthy environment. Classrooms, laboratories, and offices are well ventilated and receive adequate natural light. This reduces the use of artificial lighting during daytime.

5. Energy Conservation

The following energy-saving measures are practiced:

Use of LED bulbs

Switching off lights and fans when not in use

Regular maintenance of electrical equipment

Awareness among students regarding energy conservation

6. Water Conservation

Water conservation is practiced by:

Preventing water leakage

Careful use of water

Regular checking of pipelines

Encouraging students to avoid wastage of water

7. Waste Management

a) Solid Waste

Waste is segregated into wet and dry waste

Organic waste is disposed of properly

Cleanliness is maintained throughout the campus

b) Biomedical Waste

Color-coded bins are used in laboratories

Biomedical waste is disposed of safely as per guidelines

Students are trained in proper biomedical waste management

c) E-Waste

Old electronic items are collected separately

E-waste is disposed of through authorized agencies

8. Plastic-Free Campus

The use of single-use plastic is strictly discouraged on the campus. Students and staff are encouraged to use cloth

bags and steel water bottles. Awareness posters are displayed in the college premises.

9. Environmental Awareness Activities

The college conducts various activities such as:

Celebration of World Environment Day

Tree plantation programs

Cleanliness drives

Awareness programs on environment and health

11. Outcomes

Clean and green campus

Reduced pollution

Increased environmental awareness

Development of responsible future nurses

12. Future Plans

Installation of solar panels

Development of a herbal garden

Increase in green cover

Promotion of paperless work

13. Conclusion

The Green Campus initiative of R. S. Gunjal College of B.Sc. Nursing reflects its commitment towards environmental protection and sustainable development.

The college continues to encourage eco-friendly practices to create a healthy learning environment.
